10	It is a place where key stakeholders amongst the community can meet and discuss ways to concur health issues in our community. The best part about it is that all trainings/meetings can have take-away points that can be brought back to any community even outside of Marathon County. 5	You are doing a wonderful job getting the information out. We just need to find a way to stop the drugs coming into this country so the issue will dwindle to a manageable issue. By keeping people informed of new trends and doing educational presentations you are keeping most of us in the know. The head of the monster needs to be cut off. No one has been able to do that. At least AOD keeps us grounded, informed and hopeful. Thank you for all you do and keep up the good work.	3/29/2017 8:01 AM
